To Whom it may concern,

I'm glad we have the opportunity to voice our opinion because we can't help but feel like if the Reglement 215 goes through, we will never be able to build on our cleared residential property across from the zone conservation viable on Avenue Bourdon. The price of approx. 1 million dollars to run sewage for one side of the street only is not affordable.

We are asking that when you decide to rezone across the street from us (lots 6 108 057,6 105 607,6 105 606, and 6 108 006) you rezone in a different manner to ensure the properties on Ave Bourdon can be developed, which in turn would make sewage affordable.

Thank you,

Caroline Hallee and Abdul Butt
